

1. Visit the url given in Challenge

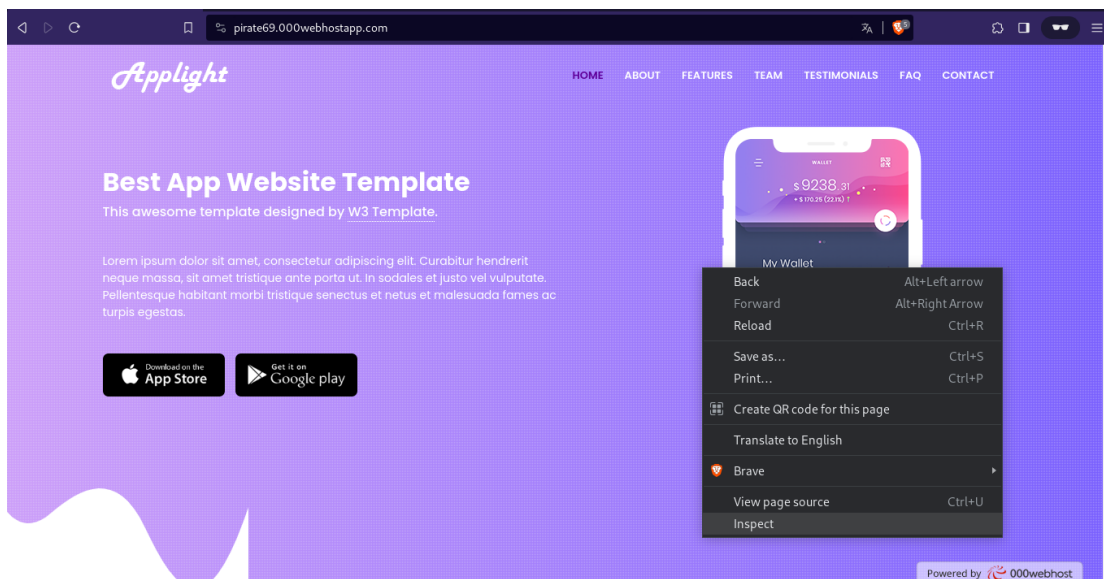

2. Here, We can see that it's a webpage, so let's open developer tools in your browser.
To open Developer Tools:

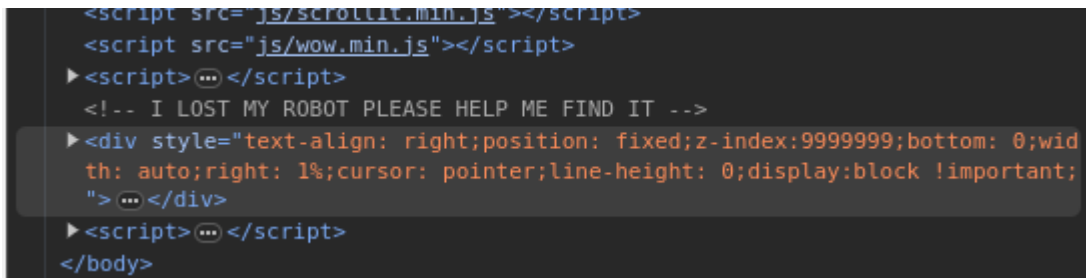

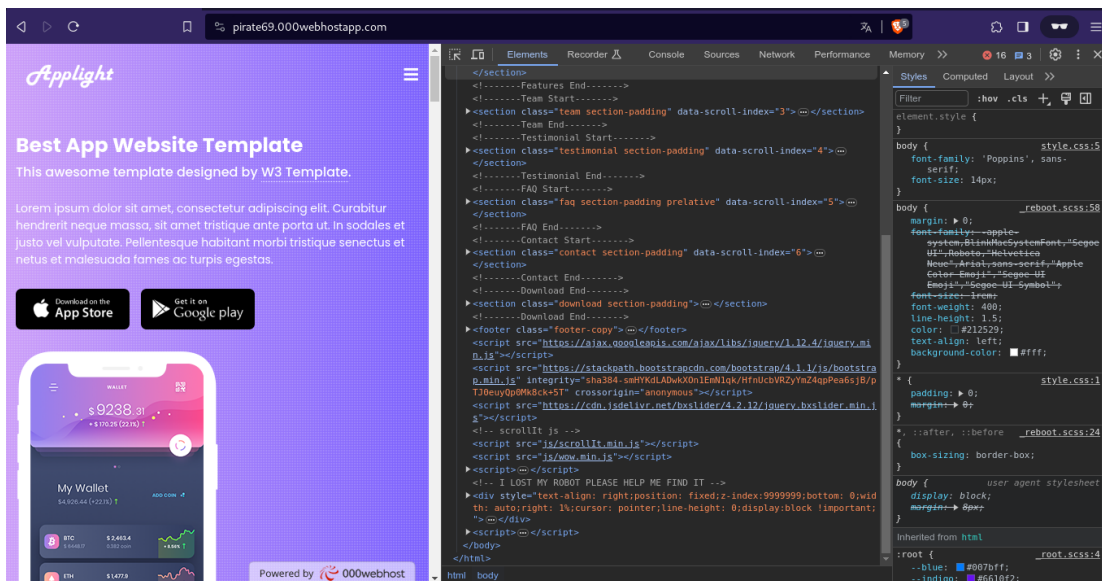

1. Press **F12**

OR

2. Do a right click and select **Inspect** Option

3. Under Elements tab we can see the whole HTML of the webpage, let's see if we find anything interesting

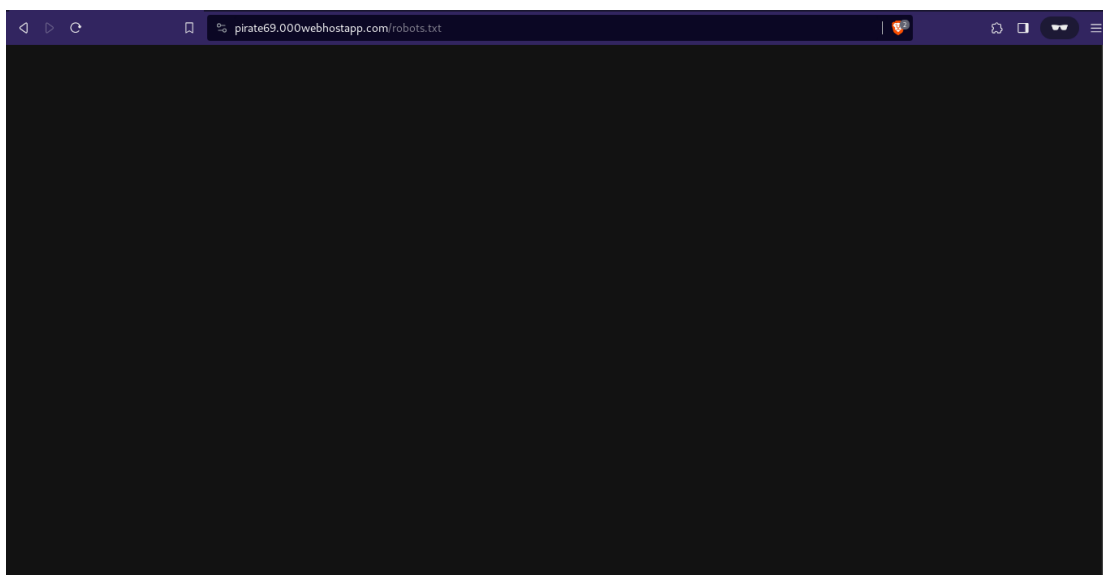

There is an unusual comment, which says **I LOST MY ROBOT PLEASE HELP ME FIND IT**

As there is the **ROBOT** word in this comment, so maybe just maybe this challenge is related to **robots.txt** file

4. Basically, a robots.txt file is a web server document that instructs search engine bots which parts of a website to crawl or avoid. For more info you visit this <https://moz.com/learn/seo/robotstxt>

5. Let's see if our flag is hidden inside **robots.txt** file

At first, it looks empty but as you scroll down

Hurray !! WE FOUND THE FLAG
